

PART OF THE CHANGE ANYTHING™ CHANGE TRAINING SERIES

CHANGE ANYTHING™

THE SCIENCE OF SUSTAINABLE CHANGE;

CHANGING HOW
CHANGE HAPPENS #1

WHAT IS IT ABOUT?

Change Anything™ develops each individual's ability to embrace, manage and champion change. In an increasingly VUCA world (Volatile, Uncertain, Complex and Ambiguous), the ability to embrace change as an opportunity is paramount.

Delivered in a unique and inspiring way, Change Anything™ enables leaders and managers to become aware of, and understand, the neuroscience, options and tools available to create sustainable change to increase the change muscle of any individual and team, leading to change-readiness and change-appetite.

Supported by case studies, personal stories, and facilitated discussion, together with individual reflection, participants develop strategies to increase their ability to underpin, rather than undermine, their team's ability to deliver results. Immediate practical application results.

CHANGE ANYTHING™

THE SCIENCE OF CHANGING THE WAY CHANGE HAPPENS

You and your team will have strategies for:

- ▶ Understanding your own relationship with change and how this influences your response and how you lead others through change
- ▶ Understanding each individual's journey on the Change Curve
- ▶ Understanding critical change concepts and their influence on self-awareness and change readiness
- ▶ The keys to creating sustainable change initiatives within organisations
- ▶ Developing skills to manage the people side of change projects, regardless of size
- ▶ Navigating the five key change elements:
 - ▶ Defining Change
 - ▶ Understanding Change
 - ▶ Readiness for Change
 - ▶ Accountability for Change
